# How to login and access exclusive content?

## Request your login

▶ The CP Cloud is a secured extranet dedicated to our distributors. A login and password are required to access the platform.

**If you do not have an account, use the “Request an account” link to request one.**

## How to access the CP Cloud?

**For desktop access and for registration request visit [www.cp.com/cloud](http://www.cp.com/cloud)**

### Local CP Cloud

Certain countries offer a dedicated local CP Cloud with local content in your language. Contact your Chicago Pneumatic customer center for availability.

### Offline access

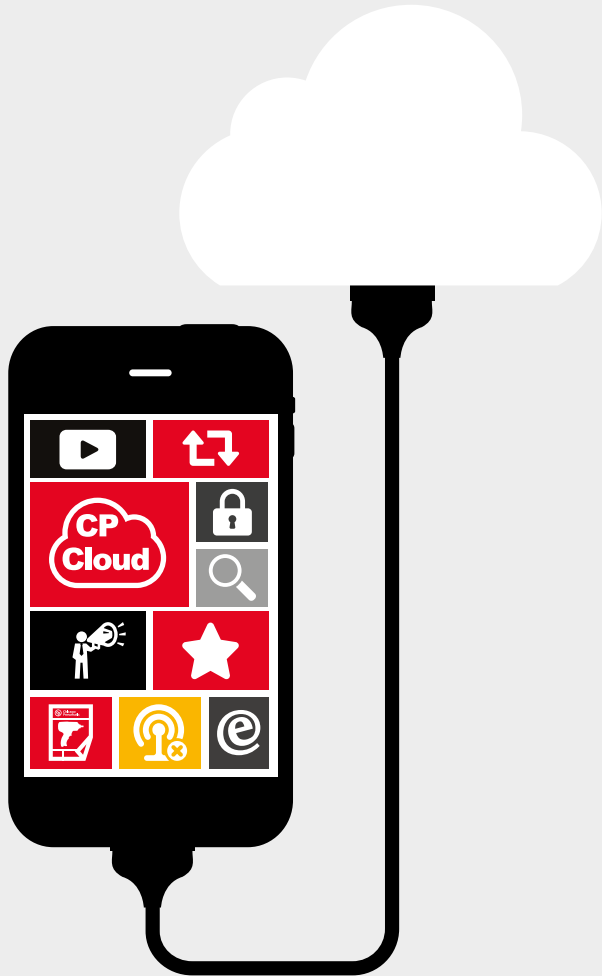

Through our dedicated mobile application, you can synchronize your documents to have access to them even without internet access.

### For mobile devices

- CP Cloud app available in the App Store
- New in 2018: the Android app in Google Play

# The power of the CP Cloud in your pocket

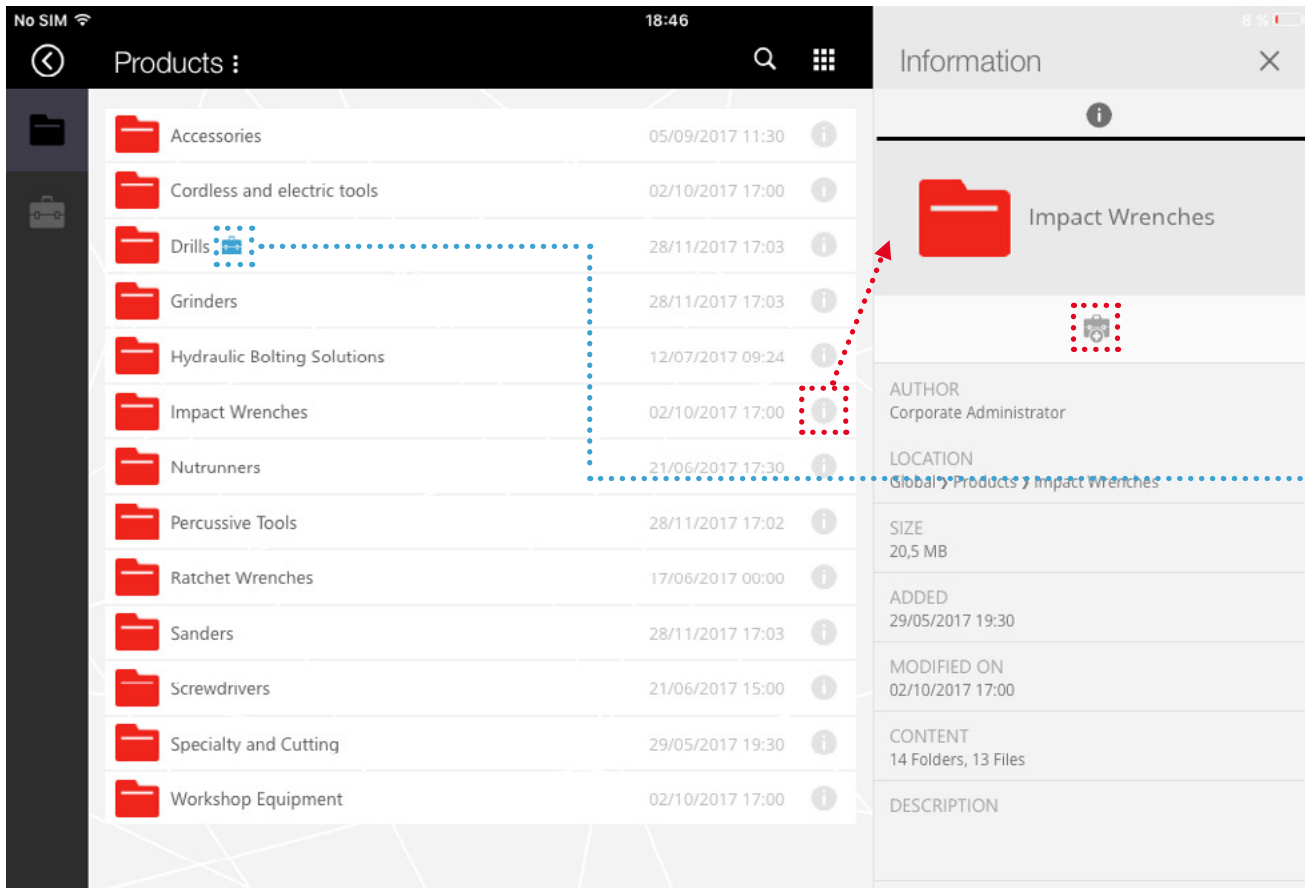

The new CP Cloud mobile application for iOS **empowers users to synchronize all or part of the content** with their smartphone or tablet.

- Always at hand: easily synchronized content and fast-to-retrieve in the “briefcase”
- Stay up-to-date: synchronized content is automatically updated so that you are sure you always have the latest version readily available
- Relevant: synchronize only what is relevant to you, and save space and time
- Read the documents in your preferred viewers
  - You can either read a PDF in Acrobat Reader
  - Or you can add a PDF document to your iBooks

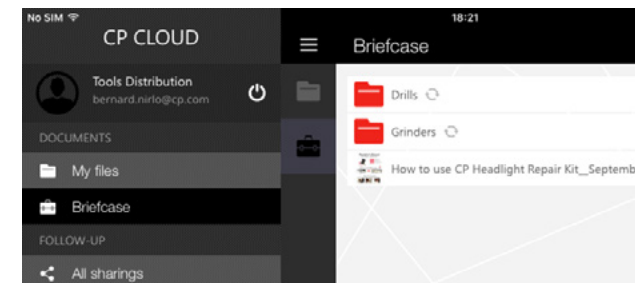

# Synchronize a single document or entire folders in 2 seconds

- Tap on the “i” icon  beside the document or folder (or long press on the item) and tap the sync icon  to add it to your briefcase: after download, these documents are now available offline!

- Retrieve them easily:

- They are marked with the blue icon indicating that they are now available offline 
- They can be retrieved in the “Briefcase” section

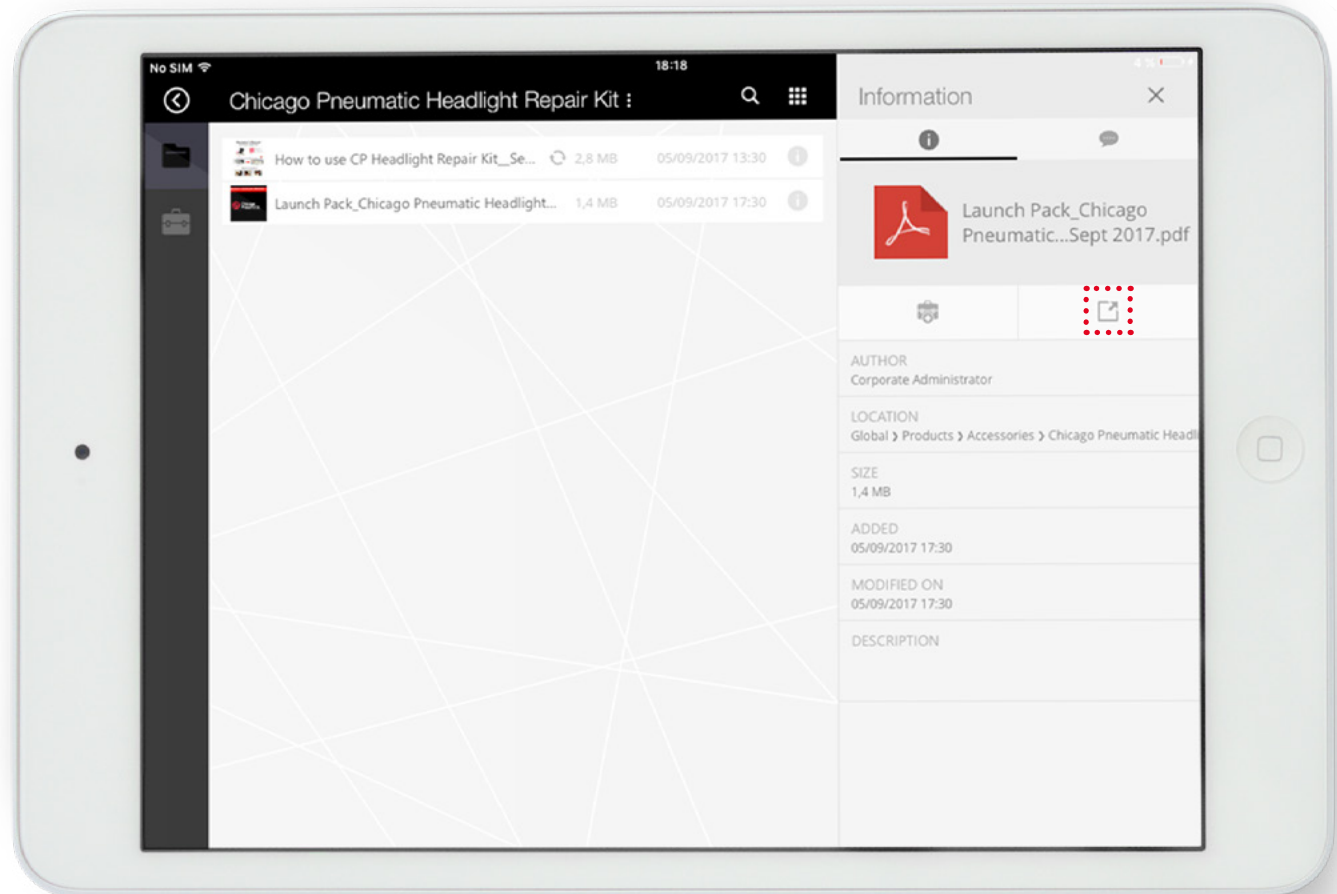

**Tip: select entire folders and synchronize all their content (files and subfolders) at once!**

- They are **automatically updated** if a new version is added to the CP Cloud

# Open documents

- Open document directly in the application
- Or in your favorite document viewer
  - Tap the “open” icon  and select an application to open the document
