**SIZE  
MATTERS**

**COMPACT YET POWERFUL, FIND THE RIGHT FIT FOR YOU**

# SIZE MATTERS.

**See our new CP Ultra Compact Tools!**

**Designed for difficult work in confined spaces.  
Ideal for transmission, engine, and brake work.  
Stubby and user-friendly.**

Small, yet amazingly powerful, our ultra compact impact wrenches offer an excellent power-to-weight/size ratio. Extraordinary powerful for their size, this new addition to the Chicago Pneumatic product line can easily remove or tighten fasteners in the most difficult to reach applications.

Smaller than your fist, these Ultra Compact Tools can fit virtually anywhere your hand can. Being so compact, they are ideal for work in tight spaces where a standard  $\frac{1}{4}$ ",  $\frac{3}{8}$ " or  $\frac{1}{2}$ " impact wrench would be impossible to use. They are "must have" additions to every mechanic's tool box.
